Powder-free, latex examination gloves,
WARNING: These gloves contain natural latex and must not be used in the event of allergy or a risk of allergy to latex. Any serious incident that has occurred in relation to the device should be reported to the manufacturer and the competent authority.
INSTRUCTIONS : Clean your hands before putting on the glove and after removing it. Never touch the outside of the disposable glove with your bare hand. It is essential to choose the size corresponding to the size of the hands for the health of the professional, the precision of his movements and his comfort. Take a glove and put it on. Once put on, do not touch the environment surrounding the caregiver. Stop using the glove if you have allergy symptoms. The gloves are for single use.
After use, remove the glove and dispose of it according to the protocols in force in the establishments.
